

## Architecture and Development

Our strength lies in our team of professionals who are trained in contemporary architecture. They ensure that our clients get the best cost effective solutions.

Commitment and hard work is the basis of every project. But what sets us is the perfect mix of creativity and technology, in every undertaking.

## Interior Designing

We enhance not just the look but even the feel of the entire place. Comfort along with the optimum use of the space available, is the focal point of every designing project.

The result—great surroundings. Happier people

**WE BELIVE THAT WHAT YOU  
BUILD LAST FOREVER**

Tel: 9869014569

## Why are we in the business?

Ever wondered how the Eiffel Tower was Built? Even today it looks just as incredible as the day, the world saw it for the first time. It may have been the desire of many to see a building reaching to the stars. But, someone did fulfill that desire.

And that I precisely why we are in the business today. We are here to build and design corporate houses and homes exactly to your specifications, needs and desires.

We believe that what you build should last forever.

At .S.Barve and associates, Architecture is culture, and not just another job.

## Our origin—Humble but firm

The origin of our company goes back to over 3 decades, when Shri S.R. Barve established S.R.Barve and Associates in 1970. He has to his credit an international project designed for SAARC CONVOCATION CENTRE AND SECRETARIAL BUILDING IN Thimphu (Bhutan).

Over the years, he has designed more than 70 industrial buildings in and around M.I.D.C. (Mumbai)..

His son Nilesh Barve took up the task of living up to the same commitment.

Today the company is equipped with a professional team of architects, engineers and interior designers.

We have been successfully catering to the needs of government, semi government as well as private sectors.

Out of creative excellence was born another wing— Nilesh Barve and Associates. We developed interiors for corporate houses and homes, including a haveli in Binmal (Rajasthan).

From the very beginning the focus has been to

give our clients cost-effective solutions in quick time.

Over the years this commitment has remained unchanged.

## Our Expertise— A perfect blend of art and science.

Architectural and Development / Interior Designing / Turnkey Projects / Landscapes / Vastu Shastra / Structural Designing / Urban Design & Township / Land Counseling / Project Management from Concept to commissioning / Government Registered Property Valuers
